

CMDi

CENTRAL MINNESOTA DIAGNOSTIC INC

WELCOME TO CMDI

CMDI installs medical imaging equipment, mobile and fixed, on a per scan or monthly flat fee basis and is responsible for service contracts, applications and upgrades.

WHY CHOOSE CMDI?

CMDI is a non-profit cooperative serving non-profit hospitals throughout Minnesota and neighboring states. It is owned and operated by the hospitals that receive services through the cooperative. The board of directors is composed of hospital administrators who belong to the cooperative and want to serve on the board. There are currently 68 hospitals that have equipment or services in 72 locations through CMDI. Annual cash distributions to member hospitals are distributed twice per year. The amount of the distribution is based on the profitability of the service line and volume in that service. There are no cash fees to join CMDI.
